Your Answer:

Crystal Role modeling sessions are related to get better and best compliment or ideas of the client experience of the user stories or features in which they are involved or participated. In this sessions, all the user stories or features are written on the small cards. Team discuss the goal for each of these small card. The team go through the user's situation to execute a mission using the story/features of the user.

The goal of this session is get the better understanding of the user experience on basis of their user stories.

### Question 5

2 / 2 pts

Compare and contrast XP's Planning Poker and Crystal's Blitz Planning.

Your Answer:

XP's Planning Poker and Crystal's Blitz Planning both share the common room for the goal which is to create the initial plan for the project. While they are different in terms of execution. User stories are analyzed in Planning poker, while specific task is focused in Blitz Planning. In estimation of this items, dependencies on other user stories is not considered in the Planning poker. Team can analyze each story independently, regardless of the item. While, in blitz planning these dependencies are considered and analyzed while creation of the initial plan.

Another difference is there between these two planning method is about duration of the iteration. Planning poker will plan the sprint for the fixed duration which is not changeable, while Blitz Planning will plan the sprint, according to the distribution of the task.
